

*"The Right Control
for Your Application"*

SUBJECT: SERIAL NUMBERS FOR KB AC & DC PRODUCTS

KB has been applying Serial Numbers to all of its products since 1996. The Serial Number consists of a product code, date of manufacture and a unique number to identify each speed control. The 9 digit Serial Number is made up as follows:

***PRODUCT CODES AND LOCATIONS**

CODE	PRODUCT	LOCATION
15	KBBC	On top of relay
26	KBIC	On top of IC1
28	KBPC	On top of IC2
30	KBCC	On top of IC2
31	KBTC	On top of IC1
32	KBSI	On transformer
33	KBMD	On top of IC2
34	KBPD	On top of relay
37	KBMM	On top of IC2
38	KBAP	On top of IC1
39	KBRG	On top of relay
39	KBRC	On transformer
39	KBMG	On heatsink below trim pots
41	KBPI	On top of IC2

CODE	PRODUCT	LOCATION
43	KBPW	On top of buss capacitor
46	KBWD	On top of IC1
46	KBWT	On top of IC1
46	KBWS	On top of IC1
48	KBET	On top of IC1
49	KBWM	On top of IC2
67	KBVF	On top of buss capacitor
67	KBAC	On top of relay
67	KBMA	On large cap
67	KBDA	On board by terminal block
67	KBMK	On large cap
67	KBDF	On side of case
67	KBWA	On edge of heatsink

The Serial Number is applied to a white label (4 x 17 mm). This label is affixed to each control in the locations shown above. If you have any questions please feel free to call your Regional Sales Manager.
